

West Corridor Constructors (WCC) has been selected by the Ministry of Transportation (MTO) and Infrastructure Ontario to design, build and finance the Highway 401 Expansion Project (the Project). The Project is approximately 18 km long from east of the Credit River in Mississauga to west of Regional Road 25 in Milton. The Project includes widening the existing six-lane configuration to a 10-lane or 12-lane Core Collector system, including High Occupancy Vehicle (HOV) lanes.

The Project includes modifications to existing infrastructure to accommodate the proposed widening, including 9 new, replaced or widened bridges, 6 bridge rehabilitations, retaining wall construction / rehabilitation and 6 culvert replacements, extensions or rehabilitations. This Project will also include supporting facilities and features such as drainage, lighting, signage, Advanced Traffic Management System and carpool lots.

## THE PROCESS

This project is following the approved planning process for a Group 'B' project under the *MTO Class EA for Provincial Transportation Facilities (2000)*, with the opportunity for public input throughout the Project. Design and Construction Reports (DCRs) will be prepared to document the works and will each be available for a 30-day review period. Notices for the DCRs will be published in local newspapers, on the Project website ([www.401expansion-mississauga-milton.ca](http://www.401expansion-mississauga-milton.ca)) and distributed to the Project contact list.

## DCR NO. 2 WORKS

DCR No. 2 has been prepared to document Civil Works such as roadway design, drainage and stormwater management, watercourse realignment, select structural works, and supplementary works including lighting, carpool lots, ITS/ATMS, and active transportation. DCR No. 2 documents the study process, design details, the environmental impacts and mitigation measures of these works, and the consultation conducted.
